Infection & Prevention Control

GERMIPHENE®

Are you up-to-date?

A review of most current infection prevention & control guidelines and Public Health Ontario's checklists for dental offices focusing on dental water quality and testing as well as instrument reprocessing and sterilization monitoring.

Tuesday April 17, 2018	**Nepean Sailing Club** 3259 Carling Ave Ottawa, ON K2H 1A6	**6:30–8:30pm** – Presentation **8:30–9:00pm** – Open forum for discussion, questions + answers

Presented by: Linda McLarty, Germiphene

Straight forward and down-to-earth, Linda McLarty has over 25 years experience in dealing with dental personnel regarding infection prevention and control and compliance. There is no doubt the past several months has been trying for dental offices in Ontario. Linda's time has been spent reviewing guidelines and checklists as well as providing referenced documentation to ensure your decisions are evidence-based and scientifically sound. Linda is able to bridge the gap between guidelines and checklists to practical solutions for you and your dental team. Discussion generating and problem solving are an integral part of her presentation.

LIGHT REFRESHMENTS PROVIDED

2.5 CE POINTS!
